It's Free! Spend an enlightening evening exploring a variety of our new non-credit programs. Meet the instructors. Ask the questions you've been pondering. Enjoy mini-workshops on two of the topics of your choice.

Discover the many opportunities the programs have to offer you:

- Additional skill sets for a thriving health care practice
- Opportunities for new career paths in health and wellness
- Enhancing personal and family health

Each of the programs is made up of individual classes which you can take one-at-a-time as your pocketbook allows. And, most classes are on weekends to make it easier on your busy schedule. Here is a snapshot of the programs you can explore during the evening's event, as well as the instructors you will meet. (Feel free to read or print each program's flier.)
